

Consultation Service for Children's Japanese Language

Children &
Guardians
Version

Dear children from abroad and their guardians

Do you have any questions or concerns about studying Japanese, going to school in Japan, or entering high school?

Do you have questions like these? Are you in need of help?

1. My child is 5 years old and does not use Japanese at home, so I am worried about what will happen after entering elementary school.
2. In the country I have been in, my child was in the third grade of junior high school. What grade should my child transfer to in Japan?
3. I graduated from junior high school in the country I have been in. Can I enter a Japanese junior high school and take the high school entrance exam?
4. Are there any special exams to enter high school?
5. Where can I study Japanese?
